

# Maryland Teachers & State Employees Supplemental Retirement Plans

## Investment Performance Report October 1, 2007 to December 31, 2007

MSRP

The results shown represent past performance and do not represent expected future performance or experience. Past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's units or shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted.

Performance data current to the most recent month-end may be obtained by visiting: [MarylandDC.com](http://MarylandDC.com). Please consider the fund's investment objectives, risks, and charges and expenses carefully before investing. The underlying fund prospectuses contain this and other information about the investment company. Prospectuses are available by calling 1-800-545-4730. Read carefully before investing.

Gross expense ratios represent the fund's total operating expenses expressed as a percentage of the assets held in the fund. For more information about gross expense ratios, read the fund's prospectus. The rates of return do not reflect a maximum deduction of a 0.28% annual plan asset fee, which, if reflected, would reduce the performance shown. No account will be charged more than \$2,000 for the year. The rates for the Investment Contract Pool are after the deduction of any carrier charges. Please see other important disclosures at the end of this report.

Fund expense ratio data provided by Morningstar®. \* Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Although data is gathered from reliable sources, data accuracy and completeness cannot be guaranteed.

Net Expense Ratio data is derived from funds' annual reports. Annual-report expense ratios reflect the actual fees charged during a particular fiscal year. The net expense ratio reflects fee waivers in effect during the time period. \*Exception: Gross and net expense ratios for the T. Rowe Price Targeted Retirement Funds derived from the funds' prospectuses.

**Nationwide Fixed Annuity (457 plan only)  
Average Quarterly Annualized Crediting**

This option is closed to deferrals and transfers from other investment options.

1st Qtr 08	4th Qtr 07	3rd Qtr 07	2nd Qtr 07
4.55%	4.55%	4.55%	4.60%

Note: The above yields were supplied by Nationwide Retirement Solutions. They are a weighted average of all money held in this investment option, which consists of seven separate pools. The yields do not reflect the deduction of the annual asset fee. The annual asset fee is 0.28%. No account will be charged more than \$2,000 in 2008. The actual yield credited to your account may be higher or lower than the yield reflected above. The Nationwide Fixed Group Annuity is issued by Nationwide Life Insurance Company, Columbus, OH. Contract #Life 2183. The 2008 minimum guaranteed yield is 4.10%. Guarantees and protections are subject to the claims paying ability of Nationwide Life Insurance Company.

**Great West Certificates [403(b) plan only]  
Quarterly Effective Gross Annual Rates**

This option is closed to deferrals and transfers from other investment options.

	1st Qtr 08	4th Qtr 07	3rd Qtr 07

## RISK DISCLOSURES

**Money market funds:** Investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other federal government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.

The money market current yield is the annualized historical yield for the 7-day period ending on the last day of the calendar quarter. Yield quotation more closely reflects the current earnings of the money market fund than the total return quotation.

**T. Rowe Price Retirement Income Funds:** The performance and risks of each Retirement Fund will directly correspond to the performance and risks of the underlying funds in which it invests. By investing in many underlying funds, the Retirement Funds have partial exposure to the risks of many different areas of the market. The more a Retirement Fund allocates to stock funds, the greater the expected risk. Underlying fund expenses are proportional to the expenses of the acquired funds in which they invest.

**International/emerging markets funds:** Investing internationally involves risks not associated with investing solely in the U.S., such as currency fluctuation, political risk, differences in accounting and the limited availability of information.

**Small company funds:** Stocks of small or emerging companies may have less liquidity than those of larger, established companies and may be subject to greater price volatility and risk than the overall stock market.

**Bond funds:** Bond funds have the same interest rate, inflation and credit risks that are associated with the underlying bonds owned by the fund.

**Non-diversified funds:** Funds that concentrate in a specific sector or focus on a relatively small number of securities may be subject to greater volatility than a more diversified investment.

**Government bond funds:** While the fund invests primarily in the securities of the U.S. government and its agencies, the fund's value is not guaranteed by these entities.

**Real estate funds:** Real estate investing entails the risks of real estate business generally, including sensitivity to economic and business cycles, changing demographic patterns and government actions.

Some mutual funds may impose a short term trade fee. Please read the underlying prospectuses carefully.

### IMPORTANT DISCLOSURES

**Investment Contract Pool** available for 457, 401(k) and 401(a) plans only.

**Vanguard Prime Money Market Fund** available for 403(b) plan only.

Investing may involve market risk, including the possible loss of principal.

Inception Date is the date the underlying fund was established. Some mutual funds may impose a short term trade fee. Some funds may be subject to a trade restriction policy. Please read the underlying prospectus carefully.

**Market indices have been provided for comparison purposes only; they are unmanaged and no fees and expenses have been reflected here. Individuals cannot invest directly in an index.**
